Draft # AD-118 in the amount of \$6000.00 is for 2 leases prorated as shown.

Note Gross Master (320.000). This figure is entered because the lease contains additional unique lands (35: S2) not appearing on the Rosa P. Axelson lease (Serial Number -1.1).

Explanation: First, the 35: NE4 description is common with the Axelson lease making this lease a related lease requiring it to share the same Lease Number (Part One). Second, since the 35: S2 description is unique and appears nowhere else, an additional 320 acres must be added to the Gross Master causing Lease Number (Part One) to encompass a larger area.

Note that Gross Lease is larger than Gross Master. This is always true when a related lease description adds unique additional lands to a Lease Number.

Saturday, November 1, 2003 The following **1** records have unpaid drafts totaling **\$500.00** and may need the following curative.

AD-118b	10-12-01	2,400.00	30	11-19-01	12.50	Y	11-19-01	execute OGL			

Draft # AD-118 in the amount of \$6000.00 is for 2 leases prorated as shown.

At first look, you might think that this lease is not a related lease of Rosa P. Axelson (Serial Number -1.1). In fact, early in the lease play, it was not. However, a later lease was executed by the Cameron Trust (Serial Numbers -5.1 and -6.1) which covered 160-101-35: S2 and 159-101-2: N2, thus making it (Cameron) a related lease and "capturing" the section 2 lands appearing in the AgriBank lease you are viewing.

This condition happens from time to time and is normal. When it does, Lease Numbers for one or more leases need to be changed. It's a royal pain, but the only way to keep related leases together.

By the way, no acreage figure was added to the Gross Master for this lease because it was added with the Cameron lease.

OBLIGATION TO DO 1-1-02											
This is the other part of split lease 1-5A and is the actual reason lease Serial Number -3.1 is related to Lease Number 1. You should view this lease in conjunction with its counterpart (Serial Number -5.1) to understand the whole story.											

Explanation: The actual lease description of the entire lease has been artificially split into two records (Serial Numbers -5.1 and -6.1). Its full description contains 160-101-35: S2 which is related to the description of State of North Dakota lease (Serial Number -2.1). However, the split lease contains additional unique lands (159-101-2: N2), Therefore, these now-related lands force the earlier-executed AgriBank lease (Serial Number -3.1) — which also contains 159-101-2: N2 — originally thought to be an unrelated Lease Number — to now become a related lease.
